

MUTINEERS ISSUE A PROCLAMATION

Formally Raise Standard of Rebellion—Decisive Struggle Against Russian Gov't Has Begun.

PROTECTION FOR FOREIGN SHIPS

Reported in St. Petersburg that No Effort Will be Made to Sink the Kuzia Potemkin.

Theodosia, July 5.—The mutineers of the Kuzia Potemkin today formally raised the standard of rebellion and issued the following declaration:

"The crew of the Kuzia Potemkin notify the foreign powers that the decisive struggle has begun against the Russian government. We consider it to be our duty to declare that we guarantee the complete inviolability of foreign ships navigating the Black sea, as well as the inviolability of foreign ports."

DOINGS OF THE KUZIA POTEKIN.

St. Petersburg, July 6, 2:10 a. m.—While no official confirmation is obtainable, the Associated Press has been informed by an authority usually reliable that the admiral has received news that the Kuzia Potemkin, after shipping coal, provisions and medicines, is again at large in the Black sea, and that her destination is unknown. Whether the report of the sailing of the battleship is true or not, the crew took a remarkable step yesterday when with all the solemnity of a provisional government, it issued a manifesto addressed to the powers, announcing that civil war had been begun against the existing regime in Russia, and pledging the inviolability of foreign shipping and foreign ports.

This action doubtless was taken to quiet the apprehensions of foreign powers and to leave no excuse for the sending of warships through the Dardanelles to effect the capture of the battleship, which until now Russia's Black sea fleet has not dared to attempt. It is considered a shrewd move on the part of the mutineers, and stamps the commander of the crew as a leader far above the class of the ordinary sailor and strengthens the opinion that he is not a member of the original crew but one of the revolutionaries who went on board at Odessa.

The issuance of the manifesto lends a certain dignity to the mutiny and proves that the crew and their commander have no desire that the world should believe them to be mere outlaws, but that they should be looked upon as men seriously raising the standard of revolution.

Nothing has been received to confirm the supposition that the request for a doctor at the Theodosia indicated a struggle for supremacy on the way from Kuzenji.

According to a rumor printed in an afternoon paper, the ship's strong box contained \$75,000 and the mutineers would therefore be well supplied with money.

In circles closely in touch with the revolutionists it is regarded as a foregone conclusion that the commander of the Kuzia Potemkin, knowing the situation in the Caucasus will head for Poti or Batoum, where the revolutionists are active.

A LOVELY COMPLEXION

New York Lady Proves That Every Woman May Have It By

USING CUTICURA SOAP

Mrs. R. Reichenberg, wife of the well-known jeweler of 146 Fulton St., New York, says: "I had a friend who was just proud of her complexion. When asked what gave her such a brilliant and lovely complexion, she replied, 'A healthy woman can be sure of a fine skin if she will do as I do, use plenty of Cuticura Soap and water.' She insisted that I follow her example, which I did with speedy conviction. I find that Cuticura Soap keeps the skin soft, white, and clear, and prevents redness and roughness."

are exceedingly strong, in the hope of producing a general rising. With the authorities in the Caucasus almost powerless to prevent it, such a contingency is not means impossible.

Dispatches from Tiflis received last night say that reports of the rioting at Odessa and the action of the Kuzia Potemkin have aroused the most intense interest and the wildest joy among the revolutionists. The receipt of the report was followed immediately by a complete strike, even the lamp lighters quitting work. The city is in darkness and the inhabitants generally are fleeing to the northward.

The Emperor Nicholas II, the crew of which is reported to have mutinied at Constantinople is a Russian merchantman.

Considerable anxiety is felt because the cruiser Chernomoretz, which was due at Sebastopol today, has not yet arrived.

GOT SUPPLIES.

Odessa, July 5.—It is reported that the battleship Kuzia Potemkin appeared today at Akkerman, 27 miles southwest of Odessa.

On July 4 a torpedo boat entered the harbor of Akkerman and demanded coal and provisions. The authorities refused to furnish them, whereupon the torpedo boat fired two shots. The torpedo boat afterwards obtained all the supplies she required.

KUZIA POTEKIN AT THEODOSIA.

St. Petersburg, July 5.—The battleship Kuzia Potemkin has arrived at Theodosia, a port on the eastern shore of the Crimean peninsula, without the torpedo boat which sailed out of the harbor of Kuzenji. It is believed the battleship took the crew of the torpedo boat on board and abandoned the ship. The crew of the battleship, which until now Russia's Black sea fleet has not dared to attempt, it is considered a shrewd move on the part of the mutineers, and stamps the commander of the crew as a leader far above the class of the ordinary sailor and strengthens the opinion that he is not a member of the original crew but one of the revolutionaries who went on board at Odessa.

The issuance of the manifesto lends a certain dignity to the mutiny and proves that the crew and their commander have no desire that the world should believe them to be mere outlaws, but that they should be looked upon as men seriously raising the standard of revolution.

RUSSIAN THRONE IS TREMBLING.

If Japan Refuses an Armistice it May Result in Revolution and Downfall of the Romanoffs.

RUSSIA'S POSITION CRITICAL.

The Czar, Defeated in the Far East, Facing Civil War at Home, Bows To the Inevitable.

St. Petersburg, July 5.—The situation regarding the armistice is as follows: Russia has formally signified to President Roosevelt her desire for a lasting peace, not only by the appointment of plenipotentiaries who will be accompanied by eminent experts fully empowered to conclude a treaty subject only to the ratification of the respective governments, but as a final step has indicated her readiness to suspend hostilities. She has avoided formally asking for an armistice as a matter of pride, but under the circumstances Russia could hardly go further than she has.

Japan, so far as known, has not yet indicated her attitude, or if she has, Russia, up to this evening, has not been so informed. In diplomatic circles the most earnest hope is expressed that Japan will consent, both for the sake of avoiding further bloodshed in Manchuria and perhaps in order to prevent a catastrophe in Russia, which may shake the Romanoff throne and appall the world by its horrors.

An eminent ambassador of a great European power said to the Associated Press:

"If Japan declines it may prove to be a misfortune for the whole world. The position of Russia is critical. The emperor, crushed by the defeats in the far east and with almost civil war at home, has lived his head to the inevitable. He wants peace and Japan has the power in her possession. Japan has vindicated her power before the world and has won the admiration of the world."

"Nothing becomes a victor so much as a bold spirit of magnanimity. If Japan still insists on humbling the emperor's head into the dust and forcing in the loss of tens of thousands of lives, she may produce a catalyst of anarchy greater than that of the French revolution which will leave her no government to negotiate with, besides threatening the peace of Europe."

"The usual procedure for the conclusion of a war is reversed in this case. An armistice generally precedes an agreement on the time and place for a meeting of negotiators. Now that the steps which usually follow a suspension of hostilities have been arranged, why should Japan, simply because she enjoys the advantage of the military situation, insist on defeat with its accompanying slaughter? Nothing would be gained by it and much might be lost."

ON THE ISTHMUS

Matters Are Very Bad. Many Diseases Almost Epidemic.

New York, July 5.—George G. Matlock, of Louisville, Ky., superintendent of a dock at Cristobal, was among the passengers on the Advance, which arrived here from Panama today. Mr. Matlock said:

"Things are very bad at the isthmus. The diseases prevalent are measles, black measles, smallpox, yellow fever, cholera, fever and malaria, and there was one case of bubonic plague. The dead trains run from Colon to Monkey Hill, a mile and a half south of Colon, always once and sometimes as many as 14 times a day, and it sometimes has as many as four coffins aboard. In fact, there is as much yellow fever aboard as there are people. I know of 10 graves always ready for cases of emergency."

"The working clerical force on the isthmus is about 90 per cent short. One district superintendent I know has work for 17 clerks and has no far

only five. The government seems to be delaying paying off the men. Forty-one of my mates were waiting for their money in order to catch this steamer, but only six got it in time to sail."

Miss A. A. Robinson of New York, who had been a hospital nurse on the isthmus, also returned on the Advance. She said she had been on the isthmus about a year and was very glad to be back again.

"The supply of nurses," she said, "is beginning to fall off, and by fall the hospital at Panama will be very short handed. None of those who are leaving now will return to Panama, and many others will leave as soon as possible. The pay, considering the conditions that prevail, is not sufficient. Sickness there is increasing and conditions generally are becoming worse."

She Tried Five Doctors.

Mrs. Frances L. Sales of Missouri Valley, Ia., writes: "I have been afflicted with kidney trouble five years; had severe pains in my back and a frequent desire to urinate. When riding I experienced much pain over the region of the kidneys. I tried five physicians without benefit and then concluded to try Foley's Kidney Cure. After taking three \$1.00 bottles I was completely cured." Sold by F. J. Hill Drug Co.
